Nurmi Hydraulics Oy

www.nurmi.fi

The strength of NURMI HYDRAULICS OY is the long term expertise in hydraulics, since 1957

Today the company has over 180 professionals in hydraulics to serve our customers.

Turnover is over 20 million euros, of which the part of direct export is about 50% and even 90% of the end users of our products are outside Finnish borders. We can give more value to our customers by large volume deliveries and, if need occurs, with fast spare part deliveries from the factories in Ikkala and Pori. Our Asian clients are served by Dalian Nurmi Hydraulics in China.

Our quality system ISO 9001 was certified in 1997 and environment system ISO 14001 in 2000.

We supply Hydraulic Cylinders for demanding applications, such as:

- Cylinders for Changing and Extreme conditions
- Cylinders for Fluctuating pressure and temperature conditions
- Cylinders for Continuous usage
- Large Diameter and long stroke cylinders
- Acid Proof Cylinders
- Tailor made applications

MARINE

Nurmi Hydraulics Oy is specialized in manufacturing hydraulic cylinders for heavy use at sea.

Our products are usually classified according to the rules of ship classification societies.

Nurmi Hydraulics Oy has supplied marine industry with hydraulic cylinders over 25 years already.

The main targets of these applications have been hydraulic cylinders for:

- hatch covers for ships
- RORO-equipment (ramps, doors etc.)
- ship's cranes
- steering gear
- deck gear
- harbour equipment
- off-shore structures

INDUSTRY

Industrial cylinders NTS6 and NTS7 are designed for continuous demanding use. They can be manufactured from traditional or acid proof materials.

Cylinders can be also equipped with linear sensors, pipings and valve blocks.

We also manufacture Double Acting Telescopes

Applications for Industrial cylinders are:

- Cylinders for Paper machines
- Cylinders for Steel mills and foundries
- Cylinders for mining machines
- Cylinders for cranes and lifting equipment
- Cylinders for Wood industry

SERVICE

Porin factory

Small series and special Cylinders

- Quick Deliveries
- Special Cylinders
- Services, overhauls and spare parts
